**ENFORCEMENT
LOCALLY OF DRY
LAWS PLANNED****Ill Before Council Would
Give Mayor Power to
Handle All Cases.****CARRYING WEAPONS ALSO****Pen and Prison Sentences Provided
Under Measure Introduced at Meet-
ing Monday; Doubt About Legality
of the Liquor Carrying Scheme.**

If two bills introduced at Monday night's session of City Council are passed, and provided they stand the test of legality, the mayor and the police department will take into their own hands the enforcement of the new laws and that governing the carrying of concealed weapons.

One of the measures would prohibit manufacture, sale, transportation, possession of liquors banned under the Volstead and Woner acts and provide penalties to be enforced by the city instead of by the county.

Fines of \$5 to \$100 are provided with a prison term being limited to 90 days at the discretion of the mayor.

Just what the status of such an ordinance, if adopted, would be in this city, Connellsville, so far as it is concerned, would be the first to take direct enforcement of liquor law violations.

The ordinance introduced conforms with provisions of the state and federal acts.

The measure governing the carrying of concealed weapons is based on a report of the assembly, it is understood, is given the mayor of a city the way to punish violators of the law prohibiting the illegal possession of "olivers, dirks and other instruments" referred to as "concealed weapons." The police would have authority to arrest any violator and the mayor would impose a penalty not to exceed \$100 or not more than 90 days in jail.

**Coal Company Stable Is
Blown Up, Horse Killed,
Four Others Are Maimed**

At 12:20 o'clock this morning about 150 sticks of dynamite were exploded at the stable of the Warwick Coal Company near New Fredericktown Greene county, across the Fayette county line from Martin. The building was demolished and a horse was killed and four others maimed, according to reports received in Uniontown. There were 12 horses in the stable.

The dynamite had been stolen from the magazine of the Fredericktown Coal & Coke Company. The lock had been sawed from the door. It was estimated that 150 sticks of explosive were missing.

**CASH SHORTAGE OF
\$25,895 IN STATE
TREASURY CHARGED****Supplemental Report Filed by
Auditor General Samuel
S. Lewis.****KEPHART ASKS FOR AUDIT**

By Associated Press.
HARRISBURG, May 9.—A report by certified public accountants making an audit of the State treasury to the effect that unless there is some record that has not been submitted or the examination has not disclosed there apparently existed as of April 30, 1921, a "cash shortage" of about \$25,895.38 in the treasury of Pennsylvania was sent to Attorney General George E. Alier's office today by Auditor General Samuel S. Lewis.

The report was made by Main & Company, accountants, who made public last week a report purporting to show variations between sums reported by the state treasurer as deposited in banks on certain days in 1919 and 1920 and the sworn statements of the banks concerned.

The report made public by Mr. Lewis today is called "Section No. 2." Mr. Lewis made it public without comment. It is an extended study of what is called a cash shortage appearing early in December 1920 and being traced through five months.

**GUNS AND BOMB
EXHIBITED IN
TREASON TRIAL**

By Associated Press.
CHARLESTON, W. Va., May 9.—The Jefferson county circuit court today in a treason charge saw a miniature arsenal around the witness stand today when state and defense entered exhibits from the trouble zone involved in last year's maice. Three military rifles from among those taken by the federal troops from the miners were placed in evidence by the state and the defense countered with the casing of a bomb it claimed had been dropped by an airplane on the mine lines.

Adjutant General Charnock, who had identified the rifles, said he had seen this bomb in a store window in Charleston and heard it said it was one dropped by an airplane during the fighting. Asked if the talk was not that the bomb had been dropped among women and children, he said he had heard nothing of that.

D. L. Reed of Edgewood, who was treasurer of the Raleigh, Wyo. burial fund, testified that four armed members of the local union ordered him to sign five blank checks by use of which \$575 was drawn from the fund. After the march Reed said he started out to recover the money but it was settled out of court on condition that he surrender the cancelled checks.

Mrs. Reed testified armed men forced Reed to give up \$575 of the burial fund but the court ruled out this testimony. She also testified that she saw one of the union men, forced her to give up a neighbor's pistol which she had.

C. W. Wallin of Hewitt said armed men came to his home and took him to miners' headquarters, accusing him of "cussing the union." He stayed all night, he said, not daring to go home without the password. The next day about an hour before the federal troops arrived, he testified he saw some of the men go into the hills for the declared purpose of hiding their arms.

**Branch Is Formed
Here of Catholic
Children's Bureau**

A branch of the Catholic Children's Bureau of the Pittsburgh Diocese of the Roman Catholic Church was formed here Sunday evening with Henry B. Brown as president, Mrs. Anna Lowmyer, vice-president and Miss Harriet Smith, secretary.

The object of the bureau is to care for homeless children, to reunite families which have been broken up by differences between husband and wife, to secure employment for those of working age and in other ways to aid in keeping the home intact.

**CALUMET IS SECOND
OF FRICK PLANTS TO
RECOVER FROM STRIKE**

The resumption with a full force this morning of the Calumet plant of the H. C. Frick Coke Company, the second of two operations of the company affected by the strike, is expected to activity.

In the first week of the strike Calumet was badly crippled for a few days but it later resumed in full Calumet was never wholly down and out but for some time operated with a very small force. After a comparison with the officials yesterday, practically the whole force returned to work and today a full run is being made.

Other resurrections reported today are Alicia No. 2 of the Pittsburgh Steel Company and Richhill plant of the Richhill Coal & Coke Company at Outcrop. The Stewart mine of W. J. Rainey is running full. Elm Grove is making headway toward larger operation.

Sheriff Shaw and Captain Smith dispersed a meeting at Footbal yesterday which they had reason to believe might be attended with disorder. The request to disperse was promptly complied with.

The hearing of persons charged with participation in the Tower Hill No. 1 riot, held before Alderman J. J. Mitchell, Uniontown, resulted in 14 being placed under bond for appearance at court. Several sharp verbal clashes took place between Captain Smith of the State Police and the attorney for the defendants during the hearing.

At the South Brownsville meeting yesterday it was again announced that President Lewis himself would "soon visit the coke region."

**Ashes May Be Put
On East Park Fill,
Tin Cans May Not**

Depositing of ashes on the fill under East Park viaduct is not forbidden. Depositing of tins, unless they are crushed so flat that they cannot hold water, is. There never has been any intent to prohibit dumping ashes on the fill, members of City Council said at the May meeting Monday night. Nor will tins be barred provided they are buried. But few persons, possibly not any, would make the trouble to clamber down over the fill and cover the cans, the belief was, so that the prohibition of cans remains.

Councilman James Wardley said he had received numerous complaints regarding tin can dumps. He said he had notices posted at a number of places but that there were torn down within a few minutes to four hours.

Health Officer George Helzel plans to keep a lookout for persons who violate the order and punishers arrests. The objection to the tin cans, so long as it will hold water, is that it becomes a mosquito breeding place.

Burning paper on private property can be done for some distance from the highway, said William Selmer, president of the Board of Health, asked for information as to the authority of the board in this matter. It finally was developed that paper is classified as garbage and that garbage, to be disposed of by fire at home, must be burned in a stove or incinerator. Mr. Wardley said reports had come to him of women burning paper with intent to cause annoyance to neighbors on wash day.

Burning paper is prohibited by the fire ordinance, it was said unless in wire baskets.

**CHAMBER COMMERCE
OPENS MEMBERSHIP
DRIVE TOMORROW****Effort Will Be Made to Enroll
Every Booster of Con-
nellsville.****MEANS MUCH TO CITY**

The drive for members of the Connellsville Chamber of Commerce will begin tomorrow. Final arrangements have been practically completed and all details will be cleared up at a meeting of the Board of Directors scheduled for this evening in the office of Secretary A. H. Norton in the First National Bank.

The importance of the present membership drive cannot be too strongly stressed, the executives say, as the present movement is one of the biggest things in the history of Connellsville. If the present effort to form a commerce body fails it will likely be many years before another campaign is waged and in these years industries which might be induced to locate in the city will be lost.

The membership fee has been cut from the usual sum and every citizen who believes in the future of Connellsville and who desires to see it expanded will be invited to enroll.

The drive will continue for a week and there is no definite goal. Several hundred, however, are the number anticipated and the more members the better success for the organization, it is pointed out.

The chambers have received their instructions and will endeavor to reach everyone. It is likely that the drive will be followed by a banquet.

The campaign opening tomorrow is an unusual one for the reason that in past years, not only in Connellsville but in many other cities or such class experts have been employed to conduct the drives. The present one is entirely under the management of Connellsville citizens, headed together for one purpose alone—to boost Connellsville, and without any desire for personal gain.

**ADRIAN NAMED
PRESIDENT OF
AUTOMOBILE CLUB****Numerous Matters for Welfare of
Organization Discussed at Meet-
ing Monday Evening.**

A meeting of the Youghiogheny Automobile Club Monday evening in Pittsburgh, Pa., resulted in the election of President of the club for the coming year, A. S. Slicer and G. Conrad, vice-presidents, A. B. Norton, treasurer, W. D. McGinnis, chairman of finance committee, A. I. Daniels, chairman of legislative committee, J. K. Renner, chairman of touring committee, Robert McDowell, publicity, C. B. Frank, roads and highways, William Selmer, membership, R. S. Matthews, municipal.

It was decided that the new officers of the club shall press the matter of securing a new bridge over the Youghiogheny river instead of having the present bridge repaired.

A way in which to acquaint strangers and persons who live in the vicinity of Connellsville with the new parking ordinance recently passed by Council was discussed and it was decided to print pamphlets telling where parking is permitted and on Saturday nights have some persons drop these into the cars along the street.

A motion for the reducing of the present dues of the club was defeated and they will remain the same as they were last year.

William Selmer was elected to head the campaign for new members, the goal being set at 500. At the present time there is a paid membership in the club.

Following the business meeting lunch was served.

**Councilman Cypher Objects to
Placing Uniontown Fire Dept.
In Class With Connellsville**

The resolution fixing the salary of Chief of Police Peter M. Murphy at \$175 a month, as agreed upon by Council when the officer was elected was held up Monday night when Councilman C. M. Stone objected to increasing the salary of Fire Chief W. B. Delbott from \$150 a month to that provided for the police head. Mr. Stone said he had no objection to the increase, but that he would not sign vouchers if the amount provided exceeded the budget. Both will probably be decided at the next meeting, Monday, May 15.

Chief Delbott asked for the increase. He invited attention to the efficiency of the department under his supervision and his seven years of service as warranting the advance, as so the fact that neither the chiefs of the two departments had been paid the same.

Councilman J. A. Cypher objected to a comparison with the salary paid the Uniontown chief. Uniontown's fire loss, he said, is 14 times that of Connellsville. "If you don't call our chief efficient then there is no use in the state," Mr. Cypher said. He asked that Connellsville be compared with Greensburg, "for any city that has a fire department, not Uniontown."

Mr. Stone's objection was solely on the fact that no provision for increases was made in the budget.

**Local Youth Inventor of
Process for Recovery of
Photographic Silver Waste**

Charles F. Weisgerber, a son of Mr. and Mrs. C. H. Weisgerber, this city, has invented an electric by-product furnace which will remove silver from photographic film and will recover copper, gold and other non-ferrous metals from all forms of solid waste. He is now employed in Los Angeles by the Chemical Economy Corporation.

The new furnace has been in operation for three months and has proved so successful that a second furnace is being built with the special object of recovering values from waste brass.

"With the installation of the second furnace," says the Los Angeles Times, "and the continuance of the precipitation, it is expected to recover annually about 15,000 ounces of silver from the photographic industries alone, to treat thousands of tons of ore, waste and solids impregnated in any way with the precious or valuable metals."

Charles Weisgerber is very well known in this city. He was graduated from the Connellsville high school with the class of 1915. During his school years he showed exceptional interest in chemistry and following graduation he worked in various laboratories, at one time being employed by the government.

Together with C. W. Judd, the originator of the Chemical Economy Company, H. Wickelizer and H. T. Diphani, Weisgerber is owner and operator of the new industry.

**THIRTY-FOUR
MORE HELD IN
RIOT HEARING****Superintendent at Tower Hill
Identifies Etch Man
Arraigned.****RIOT GUILT IS DEFINED**

Thirty-four more alleged participants in the rioting at Tower Hill No. 1 April 29 in which state police were beaten, making 45 in all, were held for court this morning following hearings before Alderman J. J. Mitchell in the small courtroom at the courthouse in Uniontown on charges of aggravated riot, assault and battery.

One man was discharged and a woman was permitted to go home to her children.

Frank Coffroth, superintendent of the plant, was the only witness. He identified every one of the defendants and explained where they were at the time of the trouble. All are foreigners.

Speaking for the prosecution, Attorney W. C. McKean asserted that the mere presence of the prisoners at the scene of the riot made them guilty. "There is no middle ground," Mr. McKean argued. "They were there and lending encouragement, if taking no active part in the rioting. There was but one thing to do—leave or arrest in quelling the disorder."

The bail was fixed at \$2,000, the same as asked of those given hearings Monday. It was said few, if any, will be able to secure bail.

IS SENTENCED TO

Penalty for Breaking Into
B. & O. Car.****TEARS FAIL TO HELP HIM****Counsel Also Makes Plea for Leniency
But Judge Van Swearingen in An-

Also Will Go to the Penitentiary.**

Called before Judge J. Q. Van Swearingen this morning for sentence on charges of breaking into a Baltimore & Ohio freight car in the yards in Uniontown, and stealing several thousand cases of cigars, Mont W. McCormick, well-known Uniontown man, was ordered committed to the Western Penitentiary for a period of two and a half to three years.

Counsel for McCormick made a plea for leniency and was tricked down the face of the prisoner, but both went for naught.

McCormick returned a few days ago from Oklahoma where he had gone after being convicted of the alleged crime and after forfeiture of his bail had been ordered. He was prosecuted by R. C. Bledsoe, captain of the Baltimore & Ohio police in Connellsville.

McCormick's parole following the shooting of George Adams in a Uniontown hotel expired yesterday. His trouble during the parole period constituted a violation of the parole and as a result he will be required to serve an additional year, following the expiration of the term imposed by Judge Van Swearingen today.

Andy John and Joe Coury, comprising the firm of Coury & John, of Uniontown, charged with the theft of merchandise from the store of W. W. Seaman of Scottsdale, were sentenced to serve two to three years in the penitentiary.

An order of court was made today that E. Newton Newcomer be kept in the county jail until the June term of court, at which time he will be called as a witness in a case against D. Ferd Swaney. The order is taken to mean that Newcomer will not be returned to the penitentiary as his term will have expired by the time the June court is over.

Rejoices Daughter

Can Resume Duties

"Everything my little 12-year-old girl ate distressed her; even a glass of water would cause her to belch gas and she was unable to go to school for nearly a year. I bought her a bottle of May's Wonderful Remedy, and since taking it she is eating up out of house and home and is attending school again." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Prezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with the finger! Your druggist sells a tiny bottle of "Prezone" for a few cents, sufficient to remove every hard corn, soft corn or corn between the toes, and the calluses, without ointments or irritations.

Daily Fashion Hint

Sleeves are either more or less—very much more or very much less. If one would be dressed in latest fashion, there are two attractive ways of having them. The first on the sofa wears black satin. The visitor has a clever frock of mid-night blue Canton crepe with wide sleeves of Georgette in matching color. White bands, edge neck, sleeves (on both ends), make the circle and dot the sleeves.

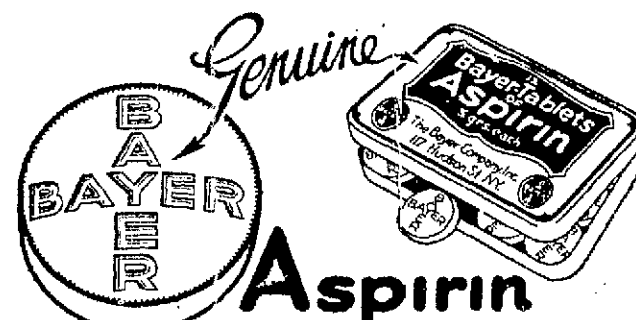

Fertilizer Practice

In selecting your brand of commercial fertilizer this year it is a good idea to have at least two varieties, alternating them. A pulverized sheep manure or shredded cow manure with some of the balanced fertilizer makes an excellent combination. Application of the same fertilizer, gardeners say, seems to have the tendency to "burn" the soil and the plants get "fed up" on it. They need a variety of food much as does man.

The continued use of commercial fertilizer is balanced by the occasional use of lime, especially if the soil shows a tendency to turn sour. This is indicated by thick growths of the common sorrel or sour dock as it is sometimes known and by the formation of moss in shady, moist spots.

The fertilizers usually bear a series of numbers that sound like a football signal. These may be readily interpreted when it is known that they usually represent the proportion of elements in the fertilizer and in this order—available nitrogen, phosphoric acid, potash. For instance, 3-11-2 would indicate three parts nitrogen, 11 parts of phosphoric acid or phosphate, and two parts of potash. It is the commercial way of expressing the chemical formula of the fertilizer.

The application of commercial fertilizer should be invariably a light one to be heeded in. Light and often, is the motto to observe. It wastes the material to put it on too heavily as the plant can use only a certain amount and the rest is lost. As it is concentrated form, it may prove too strong and induce in some cases too rank a growth of foliage.

MAKING CONNELLSVILLE A GOOD PLACE TO LIVE.

Publication is commenced on this
page today of the story of how Shaw-
nee, Okla., won the Rotary prize of
\$2,500 as the best town in which to
live in that state.

There are so many things in this
story which will be of interest to all
people who are desirous of mak-
ing Connelleville all that it should be
as a home town, that each of the in-
stallments should be very carefully
read. When the story is completed it
will be found we have right here at
home so many of the things which
have contributed to success in Shaw-
nee that we ought to be encouraged to
employ them to better advantage, and
to add what we may lack to make
Connelleville even better than Shaw-
nee as a place to live, to rear children
and to transact business.

SHOULD BE STOPPED.

It is anything but fair to household-
ers who are scrupulously careful in
their observance of the law and or-
dinances respecting the disposal of
garbage that other persons pay little
or no attention to them and escape the
penalties provided. It is true that
warnings have from time to time been
given by public notice and otherwise
that arrests will follow a repetition
of offenses. While these cautions may
have caused some persons to exercise
more care they have not been heeded
by others. The result has been that
here and there in different parts of the
city nearby dumps are utilized as
places for disposing of garbage in-
stead of the method required by the
law and ordinances to safeguard the
public health.

Everybody in the community is pre-
sumed to be sufficiently enlightened to
know that by spreading garbage over
dumps or other little used areas
neighborhood nuisances are being
created and the public health men-
aced. There is absolutely no excuse
and no justification for such a prac-
tice and it should be stopped. Suf-
ficient warning has been given. The
next offenders should be made to pay
the penalty of their willful disregard
of the law.

After giving the glad hand to the
Chamber of Commerce canvassers the
next thing to hand them is your ap-
plication for membership.

It is becoming extremely doubtful
if some of the partisan newspapers
will be able to stand all the spasms
they are experiencing from day to
day as their method of inviting atten-
tion to their particular favorites
among the candidates.

According to the attorney for the
defendants in the Tower Hill riot the
State Police committed a grave
breach of the law in not strictly sur-
rendering to the rioters and giving
them their defensive weapons and am-
munition.

How grateful the public will be that
a week from today will see an army
of candidates and muzzie their noisy
supporters.

Boasting Negro Gets Into Trouble

James Brown, colored, who lives
near the Gilman coal tipple, near
York Run, was arrested Monday by
County Detective John J. Russell fol-
lowing information that Brown was
making boasts of his ability to "bump
off" any nigger who started working
around the mine.

Brown's house, it is said, was full
of riles. Brown was released after a
hearing before Alderman Matt Allen
of Uniontown under \$1,000 for surety
of the peace. Brown is said to have
boasted that he could bring a trusty
rifle into play to keep miners from
working around the tipple which is
near his house.

How Western Town Won the Rotary Prize of \$2,500 as Best Place in State to Live

PART I.

About the campaign for membership
in the new Chamber of Commerce
and its reorganization generally as a
means of making Connelleville a bet-
ter place for living and doing busi-
ness. It is interesting and timely to
know what Shawnee, Oklahoma, did
to win the Rotary prize of \$2,500 as
the best town in the state in which
to live. The story of how the prize
was won is related by E. R. Waite,
secretary of the Shawnee Board of
Commerce. It follows in its essen-
tial parts:

"The better city movement was
originated in the mind of Dr. W. A.
McKeever of the extension depart-
ment of the Kansas University, three
years ago and tried out in the state
of Kansas. There it worked like a
charm and provided a great incentive
in cleaning up and making possible a
wholesome atmosphere for the grow-
ing generation in the Kansas cities.
The plan was brought to Oklahoma,
and Shawnee, the first city in which
it was presented, hastily adopted it
and rushed it to a successful com-
pletion.

"This city was one of the first in
the state to build a genuine and virile
school system, its high school build-
ing being one of the pioneers of the
\$150,000 construction cost in the
South west. From this start, the
school system here, the main point
according to the judges of the contest
that Shawnee led the other cities in,
has grown to a school plant worth
more than a million dollars and an an-
nual enrollment of 4,200.

"The school system here is built
around ten main points. They are:

- "1. A system of health and physical
training measures and program
under school direction.
- "2. Management of the play and
recreation periods of school and plans
for making athletics a vital part of
the whole school program.
- "3. Efforts to regulate home study
and school work by means of house-
schedule arrangements, i. e., home
study, Monday evenings to Thurs-
day, inclusive.
- "4. A plan of regular weekly
school managed social affairs and lit-
erary societies, dramatics and musical
clubs and the like.
- "5. The use of the regular assem-
bly periods for creating school senti-
ment and for furthering programs for
school betterment.
- "6. Plans for general direction of
scouting (Boy Scouts, Girl Scouts,
Campfire Girls) i. e., a faculty com-
missioner and Campfire director.
- "7. Instruction in soil culture,
normal training, household economy,
thrift, saving, home industry, school
and home gardening and the like.
- "8. Measures for preventing pupils
from using tobacco, attending ques-
tionable pleasure resorts, from
gambling and similar excesses.
- "9. Active parent-teacher associa-
tions or the equivalent with free
membership and regular open discus-
sion of school and home problems.
- "10. Other organizations and mea-
sures within the school intended to
make the school a conscious part of
the community life and a conscious
contributor to the good thereof.

"The school authorities have ap-
plied no effort in providing health for
the school children. The Junior Red
Cross crusade idea was followed un-
der two years ago, when the authori-
ties placed the health direction of the
schools under the supervision of a
trained nurse, who visits every school
in the city each day. Where medical
attention is needed, a notice is sent
to the parents of the child in ques-
tion, where operations and exhaustive med-
ical treatment are needed and the

family is unable to pay, the Shawnee
physicians have donated their ser-
vices. Dependable school children are
provided with glasses through the
same source. The entire school sys-
tem is said to be one of health.

MOUNT PLEASANT
MAN DIES SUDDENLY
AT PHILLIPS PLANT

Frank Hart, Mason, Stricken
When in Apparently Good
Health.

BOOST FOR GOOD ROADS

Special to "The Courier."
MOUNT PLEASANT, May 9.—Word was received here last evening that Frank Hart, a mason, employed at Phillips, had died very suddenly. Mr. Hart was home Sunday and had left for his work in apparently the best of health. He is survived by two sons, Charles and Chester, of this place, and one daughter, Miss Mary, with whom he made his home in College avenue. Charles, the oldest son, went to Phillips last evening to look after the body.

Good Fellow a Revolve Degree.
At the regular meeting of Ezra Encampment No. 310 of the I. O. O. F. last evening a large class was initiated into the royal purple degree. The degree was put on by Deputy Grand Patriarch Weldon of Greensburg and his team. At the close of the meeting refreshments were served.

Graves Need Attention.
The Mount Pleasant Cemetery Association has asked that all persons owning lots not endowed make arrangements to take care of their lots at the cemetery before Memorial Day. It will take all the time of the men employed by the cemetery association to get the endowed lots presentable by Memorial Day so that this does not leave any time for the cleaning up of graves now endowed.

Good Roads Meeting Tonight.
A large attendance is expected at the good roads meeting to be held in the borough building this evening at which time also will be discussed re-establishment of service on the Southwest branch of the Pennsylvania Railroad.

Tonsils Removed.
Jerry Teitelbaum, the six-year-old son of Mr. and Mrs. George Teitelbaum, had his tonsils removed at the Memorial Hospital yesterday.

Free Orchestra Concert.
The United Brethren Orchestra will give a concert in the church on Friday evening. There will be no admission. Refreshments will be served.

MEYERSDALE, May 9.—Next Thursday evening, May 11, home talent play, "Lagion Revue of '22," will be given in Reich's Auditorium for the benefit of Charles E. Kelly Post No. 112. An excellent program has been prepared, some of the best talent of Meyersdale taking part, and a good show is promised.

Attorney and Mrs. Joseph Levy of Somerset spent Saturday here with relatives.

Mrs. Maria Shipley of Conduence returned home Sunday after a visit.

"Gets-It"

For Corns
Costs Little

If so-called corn "cures" have only made your feet more sore and tender,

don't despair. For instant, complete, permanent relief is guaranteed by the new method. A few drops of "Gets-It" removes any old or new, hard or soft corn from any foot. It penetrates in every pore. Costs but a trifle—everywhere. Recommended by all druggists. B. Lawrence & Co., Mr. Chas. H. Fletcher.

Sold in Connelville by Reichley's Pharmacy, J. C. Moore, Connelville, Drug Co.

here at the home of Mr. and Mrs. John Stacey.

Mr. and Mrs. Conrad Glesner of Connelville were week-end visitors here with relatives.

Mr. and Mrs. J. S. Wood and two children returned Sunday from Pittsburgh where they visited for a few days. The trip was made by automobile.

Mrs. Walter Jones of Somerset visited at the home of her parents, Mr. and Mrs. C. E. Crowe, Saturday.

Mrs. R. V. Bragg and daughters, Helen and Mary Elizabeth, spent Sunday with relatives at Conduence.

Mrs. Roy Billings of Racine, Wis., is a guest at the home of her parents, Mr. and Mrs. C. P. Meyers.

Miss Lydia Baul of Sand Patch spent Sunday here with relatives.

This Stomach Remedy

Fits Stomach in Fine Condition—Ends Dizzy Spells, Nervousness, Headaches and Makes You Sleep Well

Indigestion, eating causes acute indigestion, gas, acidity, heaviness and sour stomach—sometimes the distended stomach causes the dreadful feeling of acute suffocation.

It is worth something to know of a remedy that will stop this distress in a few minutes—much easier than anything else you can think of.

This is no common stomach remedy, for it took years of time to combine Peppin with the other effective agents that make Davis' Mentha-Peppin, so named that the worst cases of indigestion and gastritis and other chronic stomach ailments are speedily overcome and the most badly damaged stomachs are made clean, strong and healthy.

Mr. Edwin Dicks of Allaway, N. J., a man of few words, knows this for he writes: "I entirely rid myself of an old catarrhal condition of the stomach with Davis' Mentha-Peppin."

No matter what your stomach trouble is, get a large bottle for \$1.00 today at Connelville Drug Co., or any drugstore anywhere, with the distinct understanding that if it doesn't do you the world of good your money will be returned.—Advertisement.

THE SOISSON.

"NOBODY," the feature picture today, presents Jewel Carmen and Kenneth Harlan in the leading roles. Her portrayal of the role of a young bride spending her honeymoon at Palm Beach is a refreshing piece of acting. Her wide-eyed wonderment at the gorgeous furnishings of the "millionaire's hotel" and at the stunning gowns worn by the social leaders, and her girlish excitement while she plays the roulette wheel are masterpieces of natural realism.

But the vast scope of her art is indicated when she is called upon to play the part of a woman who has lost her memory completely; from whose life a period of time has dropped. Seated up in bed in her room in New York, but ignorant of her surroundings and unable to recognize her husband, she reverts to her childhood days and spends the time cutting out paper dolls and animals which she exhibits gleefully to her nurse and the doctor who is attempting to restore her reason.

But girlish animation and childish

glare are not the only emotions she is called upon to register. A sinister current breaks into the story, and, in a manner which is decidedly original and novel, it touches her.

Tomorrow and Thursday "Bits of Life" will be shown.

THE PARAMOUNT.

"FRENCH BEELS," with Irene Castle in the stellar role, is being shown today as the feature picture. "French Beels" which is a Hollywood released picture, directed by Edwin L. Hollywood, is a modern story with the action divided between New York and the jungle camps of the north. Ward Crane, who has

been seen in support of many of the most famous stars, has the part of Lieut. John Tabor, the male lead. Charles Gerard, who is known as one of the best villains on the screen, is seen as Keith McWyn, manager of a favorite Broadway cabaret where Mrs. Castle, as Palma May, rises to success and fame. Another well known actor in the cast is Howard Truesdell, one of the most popular character actors in the profession.

Mr. Thomas Murray, another popular character actor, is seen as the lumber camp foreman.

Still another well-known actor is Jacko, the tiny monk which is almost as popular as Mrs. Castle herself. Jacko is Mrs. Castle's favorite

pet and goes everywhere with his mistress. He has been across the ocean several times, in addition visiting practically every large city in the United States.

Tomorrow and Thursday "The Light in the Clearing" will be shown.

THE ORPHEUM.

"FOREVER," a Paramount picture, based on the novel "Peter the Great," the greatest story of love that the world has ever known, is the feature picture today and tomorrow at this theatre. With Elsie Ferguson and Wallace Reid co-starring in the picture, the cast includes such well known players as Elliot Dexter, Montague Love and Dolores Costello.

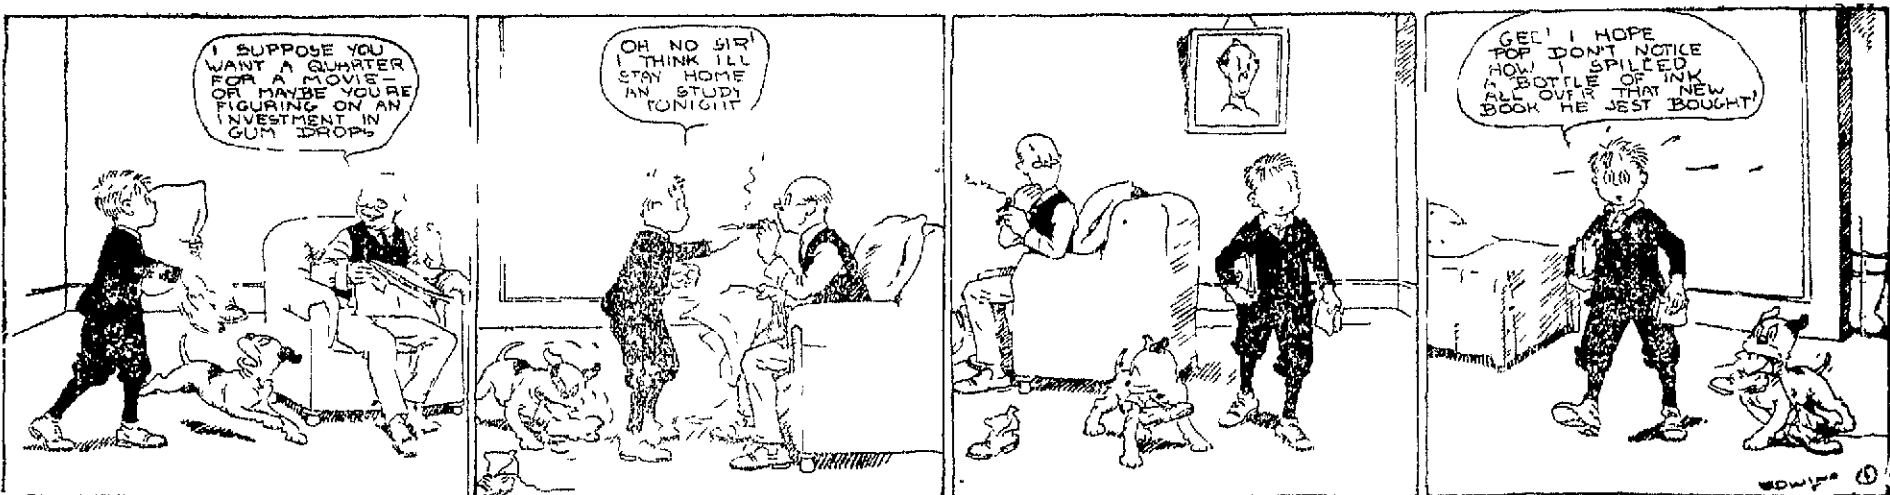

A picture that shows the strange places of the earth, without losing the gripping elements of its story is "Forever." In the dream scene Elsie Ferguson and Wallace Reid are reunited in a kiosk in a Venetian canal, in an ice palace in Russia, at

the circus Maximus in Rome, on the desert sands of Algeria, and at various show places in England and France.

In point of expense "Forever" is one of the foremost picture productions of the year. The sets are exact copies of the places they represent, having been made from photographs and old prints of the days about which George Du Maurier wrote. Thursday, Friday and Saturday "The Little Minister" will be shown.
